The height adjustable projector ceiling mount kits can be used when the height of the ceiling is not known or when flexibility is wanted. These mounts come in 3lengths offering variable height adjustment from 300 to 1350 mm. The CIS® Cable Inlay System over the full length of the pole makes it even possible to insert cables after installation. The CIS® offers sufficient space for all cables required and enables you to hide all the cables in a matter of seconds.
